

AZURE COST ENHANCEMENT ANALYSIS

As a Microsoft Cloud Service Provider (CSP), Axelliant improves upon the value of Microsoft Azure for all of our customers by offering a Cost Enhancement Analysis of their existing Axelliant CSP Azure environments. This no-cost analysis is available annually and addresses the more common areas in Azure for opportunities to reduce costs.

Axelliant's Cost Enhancement Analysis Approach

Establish IT and Business Strategic Alignment

Collaborate to understand key goals and strategies related to enabling the business through the use of cloud technologies

Gather and Analyze Data

Assess and evaluate the Azure environment

Identify opportunities for cost savings

Compile a list of findings highlighting areas where costs can be optimized

Provide recommendations to enhance and manage costs

Share guidance on ways to reduce and manage costs

Common Cost Saving Opportunities

- 1 Identify resources which are no longer being used
- 2 Right-size resources underutilized resources
- 3 Analyze data storage for cost savings involving storage tiering
- 4 Discover opportunities to discount Azure resource costs with Azure Reservations
- 5 Identify ways where common automation techniques can reduce costs
- 6 Recommend "replatforming" options where taking advantage of Platform-as-a-Service (PaaS) solutions, such as Azure SQL Database or Azure Web Apps, offer cost savings
- 7 Provide cost management guidance around cost analysis, budgets, and alerts for monitoring and managing cloud spend

THE AXELLIANT COST ENHANCEMENT ANALYSIS WILL ...
